EXPERIENCE

2025-07 — now

XR consultant & networking engineer

Marechaussee · Apeldoorn, NL

The Marechaussee is the Dutch military police. I worked on a project to connect VR players in a complex system that has been in development for years.

2024-11 — 2025-07

XR & AI engineer

Philips · Eindhoven, NL

Worked at the immersive lab on pushing new spatial tech toward something dependable enough to actually be useful.

2024-06 — 2024-11

XR engineer

Alliander · Arnhem, NL

For Alliander I worked on integrating XR into their operations. In a small dedicated team we made a prototype for placing transformers in the real world.

2024-03 — 2024-06

XR & AI engineer

Philips · Eindhoven, NL

Medical XR and AI prototyping. Worked at the immersive lab on pushing new spatial tech toward something dependable enough to actually be useful.

2022-01 — 2024-02

Creative technologist

Wonderment · Amsterdam, NL

Wonderment specializes in Location-based XR. Anchoring digital experiences to real places to tell new and interesting stories, that's what I made happen working here.

2020-06 — 2022-05

Game developer

Popcore · Berlin, DE

At Popcore I made casual mobile games at a big scale. These apps are on millions of devices and have to stay fun AND stable to keep users engaged for a long time.

2019-01 — 2020-07

XR & app developer

DTT · Amsterdam, NL

An Amsterdam studio where I worked across projects and grew from intern to team lead

2016-09 — 2018-09

VR developer

Letink Design · Enter, NL

Started my programming career at Letink, a digital 3D agency, as an intern. After that I got hired as a VR developer helping develop immersive experiences.

EDUCATION

Saxion — Creative media & game technology

STACK

Unity · C#
ARKit · Lightship VPS
TypeScript · React · R3F
Computer vision · AI & LLMs
Multiplayer networking
Backends & databases
